

WHAT ABOUT ABORTION in CASE of RAPE?

*This image can't
tell us if this baby
was conceived in
rape, but always
shows a baby
deserving love.*

The circumstances of your
conception do not change your
intrinsic value as a human being.

Abortion and Rape are
WRONG for the
SAME REASON -

BOTH ARE VIOLENT
ACTS OF AGGRESSION
AGAINST ANOTHER
PERSON'S BODY

The justified concern for a
woman pregnant from rape
does not justify ignoring the
rights of her preborn child.

*Make room in our hearts & lives
for both mom and baby.*

ABORTING the CHILD RESULTING from RAPE

JUST BECAUSE WE CAN... *IS IT RIGHT?*

- All children should be loved and accepted for who they are, regardless of how they came into being.
- Women who become pregnant from rape ought to be cared for BOTH as a rape victim and as a MOTHER, rather than pitting the mother against her child.
- Answering rape with abortion adds evil to evil, violence to violence.
- It is demeaning to the rape victim that the offered 'treatment' of her rape pregnancy is often abortion. Abortion will not help the woman forget the rape; instead, leaves her with the added memory of her dead child.
- Humans conceived in rape do not deserve to be punished for their father's crime.
- If raising her son or daughter is too difficult a reminder of the rapist, adoption is a loving option, instead of death to her innocent baby.
- **Abortion is an unethical assault that results in a grave injustice to the child.**

*Every child, no matter how conceived,
has intrinsic value.*

*Everyone deserves the basic human
right to life, from conception,
without which no other rights exist.*
