Volume 29 No. 6

2002 **June** Issue

Subscription \$15.00 Annually

SUBSCRIBE NOW!

June is *Life News* subscription renewal month

Each June we ask recipients of *Life News* to make a subscription donation to offset our printing and postage costs which are rapidly approaching \$4,000.00 a month.

We are continuing to hold the suggested donation for 12 monthly issues of *Life News* at \$15.00. If you have not made a \$15.00 subscription donation in the last year please use the coupon on page 11 and the enclosed envelope to do so now.

We do not want to stop sending *Life News* to any of our current 10,000+ readers but we need your help if we are to continue.

If you cannot afford to donate but wish to continue receiving *Life News*, or if you wish to cease receiving *Life News*, please so indicate on the coupon and return it to us.

Thank you for your support!

Dear Pro-Life Friend,

After nearly three years in the making, the Reproductive Choice Campaign of the Center for Bio-Ethical Reform (CBR) finally came to Long Island during the first week of May. For five days the two trucks with graphic depictions of first trimester aborted babies traveled the length of Long Island and made two forays into Manhattan. They were seen on the LIE, Nicolls Road, Route 110, Hempstead Turnpike, the Clearview and Cross Bronx Expressways, and from one end of Manhattan to the other on Amsterdam Avenue, Broadway, and the Avenue of the Americas, among others. Roads on the campuses of SUNY Stony Brook and SUNY Farmingdale were also traveled. Tens of thousands of people in their vehicles and on the sidewalks of New York have now seen what "CHOICE" really means: a mangled fully-formed tiny baby. We thank the members of the CBR staff, Mark, Rich, Fletcher, Erica, and Bill who manned the trucks, Long Islanders Celeste Broyles, Bob Buchta, and Jeannie Caselanova who accompanied them, and our faithful contributors who made this project possible. Unfortunately, as they do with the annual March for Life, the media ignored us but, for the untold thousands who saw the trucks, "CHOICE" now has a completely different meaning.

LIE near South Oyster Bay Road

Another major program, our pro-life newspaper-insert project, is coming along nicely, with the likelihood that we will soon be able to insert double the 100,000 we had originally planned. We thank our contributors for their generosity in funding this project.

And now I must ask each of our dedicated donors to help out again by not only renewing your subscription to *Life News* but also by making an additional gift. The funds we receive for specific projects, such as the two mentioned above, are used only for those projects and not for normal day-to-day expenses incurred in our ongoing effort to educate Long Islanders and their elected representatives on life issues. Lobbying bus trips to Albany, the free copies of *Life News* we send to clergy, elected officials, pro-life youth and others, the continuation of the bus shelter and bench signs (for which funding is now exhausted), planned mailings to all Long Island OBGYN physicians, and other pro-life initiatives, all depend on your sacrificial financial support. **Please be as generous as you can so we can continue our life-affirming work.**

Please also keep our work in your prayers and may God bless you for all you do in defense of innocent human life.

For His innocents,

Jerome B. Higgins, D.V.M.
Chairman

The truth about "CHOICE" comes to
Manhattan

P.S. We always want to reach more pro-lifers with *Life News*. For each \$15.00 subscription donation we will send three free issues of *Life News* to one additional person of your choosing. Please use the coupon on page 11, and use a separate sheet of paper to list the recipient/s of the free issues. Please enclose your subscription and/or other donation in the accompanying postage-paid envelope and mail **as soon as possible**.

NEW YORK STATE LEGISLATION

The current New York State Legislative Session is scheduled to end on June 20. We urge you to keep expressing your concerns to your legislators and/or Governor Pataki. Consult previous issues of LIFE NEWS for information on specific bills. Since it is late in the Session bill status often changes quickly. For this reason keep in touch with the Bill Status Line (800-342-9860). If an anti-life bill passes both Senate and Assembly, Gov. Pataki should be contacted as soon as possible to pressure him to veto the bill. Of course, if pro-life legislation passes both houses urge him to sign.

SENATE BILL S.7359

Sample letter:

Dear Senator..... I was very pleased to learn that on May 7 the Senate passed a bill (S.7359) which requires insurance coverage for drugs and therapies designed to help couples conceive naturally. This bill deserves enthusiastic support because it supports a couple's desire for a baby but unlike the Assembly bill and the previous Senate bill it does not require coverage for procedures which often result in the direct destruction of developing human life. I am especially proud that all Nassau and Suffolk Senators voted for the bill. It is my hope that an identical bill will be introduced and passed in the Assembly as soon as possible.

Please consider similar remedies in resolving the impasse over the "Women's Health and Wellness Act". Introduce pass legislation which like S.7359 will not require a conscience clause because it will not include provisions which mandates insurance coverage for contraceptive drugs and procedures which cause abortions. Such provisions do not belong in any "health" legislation. For the same reasons oppose any bill which mandates distribution or insurance coverage for contraceptives which act as abortifacients. If you are not knowledgeable as to the abortifacient effect of so called "emergency contraception" refer to the March 2002 edition of the "Annals of Pharmacotherapy" or read the full study on the Internet at www.theannals.com.

Thank you for your consideration.

Mail to: Senator

N.Y.S. Legislature, Albany, NY 12247

For information on New York State Legislation call Mary Arden Smith at 516-825-4852.

LAUGH FOR LIFE

Sat. June 29
7:30 p.m.

featuring **Scott Wood**

Christian Comedian/Impressionist

Music by Mark Karris

An evening of fun for the entire family

To be held at:

Christian Alliance Church

35th Ave. and Linden Blvd.

Flushing, New York

\$15 for adults - \$10 for those under 17

Event to benefit:

Boro Pregnancy Center

42-19 Union St, Flushing

718-961-4357

ST. PATRICK'S, SMITHTOWN- OFFERS A PRO-LIFE SERVICE

LifeNet

We are here to "Be There" for those who need us. LifeNet is a parish based program established to assist and support those women and their families experiencing an unplanned pregnancy.

LifeNet seeks to reveal that there are alternatives to abortion, that the woman and her family do not have to face these alternatives alone, and that the volunteer/helpers of

LifeNet stand ready to help them bring life to its term.

LifeNet's trained volunteer/helpers reach out to those in an unplanned or crisis pregnancy by offering a safe, non-judgmental atmosphere in which needs may be shared and support offered through the nine months and beyond.

LifeNet's volunteer/helpers offer confidential services and counseling. Call our Parish Outreach 631-265-2668 for information or the 24 Hour Hot Line 631-554-4144.

HEALTH & SCIENCE REPORT

THE ABORTION CONNECTIONS

Pre-term birth is a risk factor for **cerebral palsy**. An article by Brent Rooney in *Celebrate Life* quotes Prof. Barbara Luke, "a highly regarded author in the field of obstetrics, 'If you have had one or more induced abortions, your risk of prematurity with this pregnancy increases about 30%. If they were done during the second trimester, after 14 wks, your subsequent risk of **prematurity** is greater than if they had been done during the first trimester, before 14 wks.'...a second mechanism by which abortion boosts prematurity risk is infection, in particular, infection of the uterus. At least 16 studies...including one published by the prestigious *New England Journal of Medicine* support Luke's claim...An additional study...found that the greater the number of previous induced abortions, the greater the risk of a subsequent low birth weight newborn." A later, very large study of over 61,000 Danish women showed: "Doubled risk of a very preterm birth (before 34 weeks gestation) for women with previous induced abortions...A 1,155% boost in prematurity risk for women with two previous 'evacuation' type abortions." (*Obstetrics & Gynecology*)

Eileen Doyle writes in the *New York State Nurses for Life Newsletter* about the **abortion/child abuse** connection. She reports on Dr. Philip Ney's book, *Deeply Damaged, An Explanation for the Profound Problems Arising from Aborting Babies and Abusing Children*. Dr. Ney has researched this subject for 20 yrs. The newsletter states, "For many years the unquestioned assumption was that unwantedness was a cause of child abuse. Abortion of unwanted children would then cut down on the incidence of child abuse. Dr. Ney found in the early years of his practice that women with pregnancy losses tended to be depressed after the birth of their next child. They had difficulty bonding which made abuse and neglect more likely. His research found that more abortion resulted in more child abuse. He also found that 'child abuse more frequently leads to abortion...People who are dehumanized by mistreatment in their childhood are more likely to dehumanize and destroy their young.' Ney found in his research that in Canada in areas where there were low rates of abortion there were low rates of child abuse, and in areas where abortion rates increased so did child abuse. He cites the work of Dr. Lenoski who found it far more likely that it was the wanted children who were abused."

"Once respect for preborn lives has been sufficiently eroded, the movement to legalize **euthanasia** can begin..." (Brian Clowes) In society today, the accepted solution to babies being born with handicapping conditions seems to be killing the baby rather than curing the condition. Pouring money into the detection of the disease when there is no cure available is an obvious move to abortion as the option. Dr. Leo Alexander writes in the *New England Journal of Medicine*, "There is a prevalence of thinking in destructive rather than ameliorative terms in dealing with social problems. The ease with which destruction of life is advocated for those considered either socially useless or socially disturbing, instead of educational and ameliorative measures, may be the first danger sign of loss of creative liberty in thinking which is the hallmark of a democratic society." On 4/1/02, the Netherlands became the first country to legalize euthanasia. This isn't anything new, since euthanasia has been tolerated there for 20 yrs. Of course they call it mercy killing! Belgium, France, Australia and England are moving in this direction. In the U.S., the propellant for legalizing euthanasia may be the very same 14th "Liberty" Amendment, or 'Privacy Right', that legalized contraception (*Griswold v Connecticut* 1965) and which became the basis for the *Roe v. Wade* and *Doe v. Bolton* abortion decisions in 1973. The first case of infanticide that we remember was a Down Syndrome baby born in Johns Hopkins and left to linger and die of dehydration for 22 days because the parent, a nurse, would not allow corrective surgery. This same procedure is used on patients who need tubal feeding. Denial of nutrition and hydration is not compassionate care. Death by thirst and starvation is painful and hideous. Most patients denied nutrition and hydration, who were not on the verge of death, took 12-19 days, often with seizures (although sedated) to die.

This is merciful, or 'death with dignity'?

"**Suicide** is rare among pregnant women, but much more common after induced abortion. It is never reported under maternal mortality from abortion, of course, even though it is causative...It is Easier to Scrape the Baby Out of the Mother's Womb than to Scrape the Memory of the Baby Out of Her Mind...The cardinal feature of post abortion syndrome is denial and suppression...Sooner or later (after 5, 10, or more years), many women can no longer handle it...Guilt is a near constant, often with shame, lowered self-esteem and then depression. Insomnia, sorrow and hopelessness, anniversary reactions, dreams, nightmares, and reliving are all part of it. She considers suicide..." (Dr. & Mrs. Willke) C. Tishler writes in *Pediatrics* that two teenaged mothers who had abortions attempted suicide on the anniversary of the day their babies would have been born. *Questions & Answers*, by Dr. & Mrs. Willke contains a report by M. Uchtman, Ohio Director of Suiciders Anonymous that states: "Of all the emotions they experience during the abortion crisis, none brings more pain and distress than the one they now know and identify five to ten times more than any other feelings... 'Oh, my God, I am evil. I have to be evil to have done this thing.'..." Uchtman further reports that of the 5,620 people who had attempted suicide in a 35-month period, 4,000 were women and 1,800 had abortions and 1,400 of these women were between 15-24 years of age. Just as the abortion climate set the stage for euthanasia, the euthanasia movement, including assisted suicide, encourages suicide. When respect for even one life is diminished, respect for all life decreases! "The number of teen suicides in the U.S. has exploded to more than 2,000 per year... If our society accepts euthanasia and assisted suicide, how will we tell a despondent teenager he has no right to kill himself if the cheerleader he adores spurns him?...or who loses self-respect through premarital sex?...or who flunks out of college?" (Brian Clowes) If an adult is permitted to kill himself or request a physician to end his life because of the fear of future pain or loss of dignity, then why shouldn't a teenager be permitted this OUT instead of facing the results of their actions? Could the school killings be related to this philosophy? Convenience has become more important than responsibility!

The *New York State Nurses for Life Newsletter* reports on "what is purported to be the first settlement of a case against an abortion doctor by a woman who sued him for failing to inform her of a link between induced abortion and **breast cancer** prior to her abortion. A similar case is still pending. In 1996, two cases were settled involving failure to inform the women about the adverse psychiatric consequences of induced abortion. A woman in North Dakota is suing the Red River Clinic for false advertising for denying any link between breast cancer and abortion. Trial is pending. (*World Net Daily*, "Law of the Land", 12/30/01) Twenty eight of thirty seven studies published since 1957 have shown a 30% increased risk of breast cancer in women who have had induced abortion and studies on American women showed an increased risk of breast cancer who have had an induced abortion in 13 of 15 studies. (Joel Brind, Ph.D., *National Right to Life News*, March 2002)."

"Women who have had one abortion more than double their risk of **cervical, ovarian, and liver cancer**, and women with more than one abortion quadruple their risks." (Brian Clowes, *The Facts of Life*, Second Edition) Abortion increases the risk of **endometriosis**, an inflammation of the mucous membrane lining of the uterus, especially among teenagers. This can become cancerous! **Pelvic Inflammatory Disease (PID)** is "A common and serious complication of induced abortion and has been reported in up to 30% of all cases." (Human Life Educational Foundation) "PID is life-threatening and can lead to subsequent infertility and an increased risk of **ectopic pregnancy**..." (Brian Clowes) Tubal pregnancy risk is increased by 30% after one abortion and 160% after two or more.

These are only a few of the abortion connections, many of which are deadly. At least 100 women die from 'legal' abortions here in the U.S. every year. Most are not reported as abortion-related. No wonder the pro-abortion forces do not want women to be informed before they have abortions.

Dolores Andreski 516-781-5274, Regina Carbonaro 516-795-7568

PROCESSION FOR LIFE

**Saturday,
June 8, 2002**

Mass: 8:30 a.m.

**Assumption of
The Blessed Virgin Mary**

YOU'RE INVITED

The guest speaker at the Monday, June 24, 2002, general meeting of the LICL will be Ron Galloy, Director of *Life: God's Sacred Gift*. Ron directs his energies toward informing the major media about the sacredness of human life. Over the last year he has sent over 24,000 pro-life mailings, has spent over 500 hours personally witnessing in front of media headquarters to the public and media employees, has made hundreds of phone calls to media staff and has written many letters to journalists to correct their anti-life articles. The meeting will start at 7:45 p.m. at the Joseph Barry Council, Knights of Columbus Hall located at 45 Heitz Place, Hicksville. All are welcome. For directions call 631-243-1435.

PLANNED PARENTHOOD TEEN HEALTH CONFERENCE OF 4/26/02 VIOLATES U. S. CODE AND N. Y. STATE DEPT. OF EDUCATION REGULATIONS

When I began my teaching career in the '50's my principal, superintendent and chairman were all veterans of military service. They were by and large a group of individuals who were principled and who had a clear understanding of ethical behavior. They were part of a generation which had witnessed first hand the horrendous effects of Nazism and Japanese Militarism and were willing to go into harms way to preserve not only our freedom, but to defend the intrinsic worth and dignity of all human life. They would not have acquiesced to the notion that it is appropriate for teens to be sexually involved or that abortion is a fundamental "right".

Today we have many school administrators who have difficulty distinguishing an immoral action from a moral one, nor are they willing or able to protect their students from society's hedonism as exemplified by Planned Parenthood's (P.P.'s) false agenda which places their students in harms way. P.P.'s Teen Health Conference is not a life affirming event, but one which has a deadly message. Just as the Axis Powers indoctrinated their youth in Facism so is P.P. indoctrinating our youth in the false doctrine of "safer sex" hedonism.

Prior to the Conference we sent every Suffolk County school district:

1. Information concerning the illegality of P.P.'s Student Survey in violation of 20 USC 1232h, which aimed at increasing P.P.'s sales of contraception and abortion services.
2. A description of Workshop #7 — Contraceptive Choices — "That goes where? - How to use them correctly."
3. Information on the National Institute of Health Study—revealing that condoms do not protect against Chlamydia, Human Papiloma Virus (HPV), Syphilis, Genital Herpes and other STD's. (5000 women die annually from HPV.)
4. Despite P.P.'s mantra of "safer sex", in N. Y. State, 25,000 abortions were performed on teens from 17 to 19 years of age, and many of those abortions were performed in P.P. clinics without parental notice or consent for about \$350 per abortion.
5. School Administrators were informed about the THC Professional Workshop "European Approaches to Adolescent

Sexuality" which presented selective data to draw erroneous conclusions.

6. They were also informed that the school districts were in violation of N. Y. State Commissioner of Education's Regulation 135 regarding health instruction "... shall be given during an existing class period, using existing instructional personnel and ... shall be age appropriate and consistent with community values."

Having been given these data, State Regulations and U. S. Code violations, why is it that on 4/26, several school districts sent their students to P.P.'s "Health" Conference" replete with misinformation? One can only surmise that with all the data provided they still couldn't "connect the dots". Was school bus transportation to the conference provided at taxpayer expense? We wonder how many Sayville school district taxpayers were aware that student were transported in a luxury coach tour bus?

It is sad to note that we have some administrators of such dubious moral fiber or inability to absorb the facts presented that they allow our teens to be lulled into a false sense of security concerning the sociological effects of pre-marital sex or the emotional and psychological impact of abortion. It is also outrageous that such administrators have abetted the violation of Federal Codes and N. Y. State Regulations with unparalleled arrogance. One wonders how many parents actually saw a P.P. brochure describing the "Health Conference" workshops. They appear to be willing accomplices to a great moral evil or unwitting dupes of P.P. propaganda.

We urge all readers to call the Superintendents of the listed school districts asking them to justify their action in allowing the students in their charge to be exposed to P.P.'s "safer sex" condom mentality already proven ineffective in curtailing the spread of STD's in epidemic proportions:

Amityville 631-598-6507	Kings Park 631-269-3210
Bayport-Blue Point 631-472-7860 x111	Sayville 631-244-6510
East Hampton 631-329-4104	Southampton 631-591-4510
Huntington 631-673-2038	West Babylon 631-321-3142

There were twelve other school buses marked with a company name, but no school district identification, so a minimum of twenty school districts participated out of the seventy school districts in Suffolk County. We thank all those administrators who have opted not to send their students to P.P.'s Teen Health Conference.

For information or speakers on the Dangers of Planned Parenthood call Johanna Cervellino 631-243-1435.

PRO-LIFE GARAGE SALE

Late summer date to be announced

Fundraiser for the campaign of Marilyn O'Grady, running for Congress in the 4th CD to defeat Carolyn McCarthy.

WE NEED YOUR STUFF:

Furniture, bikes, toys, anything in good condition, to be delivered by the end of July.

Drop off site: 17 Adams Street, Garden City

For directions call Patty Knap at 516-326-2860

Paid for by Friends of Marilyn O'Grady

QUESTIONS & ANSWERS

Question: What is Meant by "Right to Die"?

Answer: The "Right to Die." Quite simply, there is no "right" to die, according to either the laws of God or the laws of man. Pro-euthanasia activists cleverly fabricated the "right to die" in order to appeal to people who have become used to unthinkingly accepting new and dangerous "rights." The "rights" formulated under the umbrella "right to privacy" include contraception, abortion, direct and indirect infanticide, various homosexual activities, pornography and euthanasia. Courts have used the so-called "right to privacy" repeatedly to legitimize behavior that many people find abhorrent or immoral—quite simply because there is no possible legitimate justification for them.
