2011 **June** Issue

Subscription \$18.00 Annually

WE NEED YOU

To Renew Your *Life News* Subscription.

Each June we wrap *Life News* in pink to remind our readers to make a subscription donation to offset our annual printing and postage costs of over \$50,000.

Life News is your complete monthly resource for pro-life information, activities and events on Long Island. We do not wish to stop sending *Life News* to any of our current readers but we **need your help** if we are to continue.

In spite of increases in the cost of both printing and postage, we are trying to keep *Life News* affordable and so again this year we are **not** increasing the suggested subscription donation. If you have not made a \$18.00 subscription donation in the last year, please use the coupon on page 11 and the enclosed envelope to do so **now**.

If you cannot donate but wish to continue receiving *Life News*, or if you wish to **cease** receiving *Life News*, please so indicate on the coupon and return it to us. You may also choose to receive *Life News* by email. Simply check the appropriate boxes on the page 11 coupon.

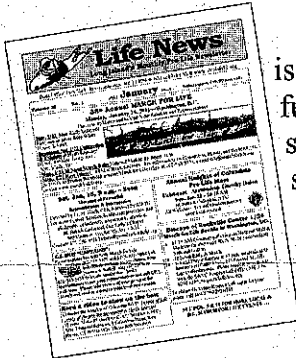

Thank you for your support!

P.S. Please also support our advertisers whose ads help pay for Life News.

Dear Fellow Defender of Life,

As you can readily see by the cover of this issue we are making our annual appeal for your support of *Life News*. Many of you are long-time supporters and we appreciate your continuing support. Please keep it up. Some of you are readers we have recently added to our mailing list due to past or current involvement in pro-life activities. We especially hope that those of you who have recently been added appreciate the wealth of pro-life information, especially that concerning activities here on Long Island, contained in *Life News*. Please give us a try for a year by subscribing so we can continue to keep you informed. Polls show that America is becoming more and more pro-life. Now's the time to get on board and keep the momentum rolling.

Life News is the most expensive continuing project of your Long Island Coalition for Life bringing the pro-life message to thousands of Long Islanders each month. It is our vehicle for informing not only active pro-lifers but also those who have influence in our society and can use that influence to promote protection for innocent human life. Media persons, educators, clergy of all denominations, legislators and political figures at all levels of government: all receive free copies of *Life News* every month. We also distribute several hundred copies of *Life News* each month, upon request, to numerous groups and churches.

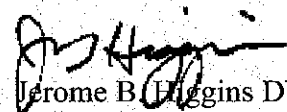

Thanks to our loyal advertisers and subscribers, much of the cost of *Life News* is offset but the remainder must be made up out of general funds. Those same general funds are also needed to pay for our several lobbying bus trips to Albany each year, signs for several public witnesses each year, literature for distribution at numerous street fairs and other venues throughout the year, and pro-life advertisements in college and weekly newspapers and broadcast media.

We are dependent on you, our loyal readers and contributors, to keep up our life-affirming work, key to which is *Life News*. Though last fall's election kept statewide offices in the hands of pro-abortion politicians, on Long Island we fared much better: **all** pro-life incumbents won, and four pro-abortion incumbents were replaced with pro-lifers. I believe the continuous educational efforts of your Long Island Coalition for Life, in which *Life News* plays a significant role, played a part in influencing voters to consider politicians' stances on life issues when voting. Please help us continue those efforts.

Your continuing support is crucial if we are to continue to educate our fellow citizens so they demand the passage of pro-life laws and the reversal of anti-life laws. Please at least make the \$18.00 subscription donation. If possible, send a bit more to help us close the funding gap. If you are a business person or professional, please advertise in *Life News*. That way you can support pro-life activity on Long Island with a legitimately deductible business expense (see page 10 for more information on advertising). If you've been thinking of subscribing or taking an ad, now's the time, please don't wait any longer.

Thank you for your support of pro-life work on Long Island and for your prayers which are just as important.

For His innocents,

Jerome B. Higgins DVM
Chairman

P.S. Please use the coupon on page 11, check off your choices and return to us in the enclosed postage-paid envelope **as soon as you can**. You can also use the coupon for gift subscriptions by checking the appropriate box. Simply photocopy it if you wish to make more than one.

FEDERAL LEGISLATION

No Taxpayer Funding for Abortion Act HR.3 passed in the House on May 4. GOP voted 235-0 Ayes, Democrats voted 175-16 Nays, for a total 251-175 -- well shy of the two-

thirds needed to override a Presidential veto. LI Congressional Reps who voted against this pro-life bill are: Bishop, Israel, McCarthy and Ackerman. Congressman King voted pro-life. The bill went to the Senate May 5, was read, and placed on their Legislative Calendar under "Read the First Time."

HR.3 would end the need to fight each year to renew Hyde Amendment bans on the funding of abortions by federal programs. It would cover the loop-holes by which ObamaCare could fund abortions, and would install conscience protection for health workers and providers.

The PROTECT LIFE ACT S.877 - On May 4, the Protect Life Act (S.877) was introduced in the Senate. It is a companion bill to HR.3, covering Hyde, ObamaCare funds, and conscience clause.

President Obama has promised to veto HR.3, if it gets to his desk (*LifeNews.com* 5/3). LN also says (5/2) that during the writing of ObamaCare, healthcare reform Czar Nancy-Ann DeParle met with 13 pro-abortion groups.

ACTION ITEMS (for House of Representatives): Tell your Representative how you feel about their HR.3 vote. (for U.S. Senate): Please support S.877, the Protect Life Act.

On April 8, a last minute compromise avoided a partial government shut down. The GOP gave up on defunding Planned Parenthood via this bill. The Wall Street Journal (4/11) commented- "The Democrats were willing to 'shut' the government over keeping PP funded, despite PP being required to pay for abortions with non-government funds, and *Roe v Wade* remaining intact." But the GOP got Senate promises to vote on ObamaCare repeal & PP defunding, and a tax-funded abortion ban in Wash, DC.

NEW YORK STATE LEGISLATION

Reproductive Health Act S.2524/A.6112

If this bill becomes law, abortion without limits or restriction will be enshrined in New York State law by establishing it as a "fundamental right" regardless of what happens at the Supreme Court level.

ACTION ITEM-Sample Message to our NYS Senator and Assembly Member: Dear _____:

I strongly urge you to oppose the Reproductive Health Act S.2524/A.6112. This bill essentially removes all restrictions or limitations on abortion in New York State, and assaults even the ability of health care professionals to refuse to participate in abortions according to their conscience. Please reply as to how you will vote. Thank you.

ADDITIONAL PENDING LEGISLATION - (If you have not contacted your representatives on the bills presented in *Life News* of 4/2011 and 5/2011 please take time to do so. *Life News* is available at www.ProLifeLI.org)

Legislative sessions in New York State run for two years. A bill introduced in the first year can come to the floor any time over two years while the Senate or Assembly is in session. We are currently in the first year of the 2011-2012 Session. To effectively support or oppose a bill, it's helpful to establish a relationship with your state legislators, educating them over time. However every effort starts with a first call. We need you to reach out and contact your legislators and let them know how you want them to vote on a particular bill.

China to End One-Child Policy in 2015 Because of Labor Shortages! (But Not Really)

Weekly Briefing, 11 April 2011, by Steven W. Mosher, President, Population Research Institute
Permission to reprint granted by PRI

I have long wondered what it would take for the Chinese Communist Party to abandon the one-child policy that it instituted back in 1980 when I was first in China. Now we know. It certainly wasn't the bitter complaints of the Chinese people about this assault on their families and children that changed the Party's collective mind. The Party has never shied away from imposing its will on the people it controls. Indeed, it believes, despite rhetoric to the contrary, that the Chinese masses exist to serve the state, not the converse. It is a crime in China to criticize Party policy, and critics are punished, not heeded.

Nor was the Party at all concerned about the millions of children, both born and unborn, who have been sacrificed as a result of this policy. After all, eliminating people was what the population control policy was all about. Diminutive Deng Xiaoping set the tone of the policy back in 1979 when it said, "Use whatever means you must (to control China's population), just do it. With the support of the Chinese Communist Party you have nothing to fear." Party officials have been "doing it" to Chinese women ever since, to the tune of 7 to 10 million abortions a year.

Did the Party leadership finally begin to regret the massive and ongoing human rights violations that the one-child policy entailed? Hardly. It takes a pretty hardened leadership cadre to send mobile abortion squads to hunt down pregnant women, to arrest them for violating the one-child policy, and then to abort and sterilize them against their will. This has been going on for 30 years. It is highly unlikely that Hu Jintao simply woke up one morning wracked by guilt and said to himself, "This is wrong."

No, the reason that the policy may be ended has nothing to do with human considerations at all, but with cold dollars and cents calculations. You see, as a result of the elimination of 400 million productive young people from the population over the past three decades, China now has a labor shortage. For 20 years, the coastal provinces have been scouring the backwaters of China for young people to fill factory jobs in assembly plants that would otherwise go begging. The villages of China have been emptied out as a result, and are now

primarily home to the very young and increasing numbers of the very old.

China has now hit the Lewis turning point, named after Arthur Lewis, a Nobel Prize-winning economist who first defined that critical moment in a developing country's economic rise when its labor supply dries up. In my view China has already hit the Lewis turning point, given that wages, prices, and inflation are now soaring in China. Others, like Dong Tao, chief regional economist for Credit Suisse Bank in Hong Kong, say that China will hit it within two or three years. China's communist leaders now realize that they have created, by means of their Draconian one-child policy, an artificial shortage of labor by eliminating an estimated 400 million people from the population.

But they have a problem. They cannot admit that their policy was wrongheaded from the get-go without delegitimizing their rule. So they have decided to back away from the current policy slowly, by moving to a nationwide two-child policy. This will not eliminate the abuses, of course. Women will still be arrested for the crime of being pregnant, locked up until they give their consent for an abortion, and then aborted against their will. But these now will be women who are pregnant with their third child, not with their second. The state, by all accounts, does not intend to give up its control over the reproduction of the Chinese people.

And so the Chinese Communist Party will continue to violate one of the most fundamental rights of the Chinese people: the right to decide for themselves the number and spacing of their children.

From www.lifesitenews.com dated April 28, 2011:

China recently released the results of their first census in 10 years revealing that population growth was cut almost in half from the previous decade. Although some experts anticipated the Chinese government would be pressured to relax its population control policies of forced abortion, sterilization, imprisonment and enormous fines, President Hu Jintao announced that China would continue with its policies to "stabilize a low birth rate." The number of Chinese over the age of 59 rose 2.93% while the number under the age of 15 dropped 6.29%. This demographic shift will greatly affect the younger generations causing an "upside-down population pyramid" where one child will be caring for 2 parents and 4 grandparents. There is also a huge gender imbalance due to sex-selective abortion which may lead to social unrest as millions of young men are unable to find wives.

You're Invited!

Please join us on **Monday evening, June 27 at 7:45 p.m.** for a special screening and discussion of excerpts from "Blood Money." Narrated by Dr. Alveda King, this documentary exposes the practices and strategies of the abortion industry. It also covers the history of abortion in America from the spawning of Planned Parenthood by Margaret Sanger to its legal underpinnings in Roe v. Wade.

The meeting will be held at Joseph Barry K of C Council Hall, 45 Heitz Place, Hicksville. For information call 631-243-1435 between the hours of 9 AM and 7 PM. Light refreshments upon arrival.

All are welcome for all or part of the evening!

Comments on Planned Parenthood by Thomas E. Dannelly:

It is worth noting that Planned Parenthood had publicly opposed legalized abortion for a number of years. Specifically, for example, in a 1963 pamphlet entitled: "Plan Your Children for Health and Happiness" Planned Parenthood wrote the following: "An abortion requires an operation. It kills the life of the baby after it has begun. It is dangerous to our life and health. It may make you sterile so that when you want a child you cannot have it."

Currently, since doing a 180 degree flip/flop on the moral issue of abortion it now receives one-third of its budget annually from American taxpayers.

Finally, one is at a loss to understand why many elected officials – such as President Obama – fully support public funding of abortion, even though it is so barbaric and denies to unborn children – whose only crime was to be unwanted – the unalienable right to life cited within our Declaration of Independence.

Congratulations to Rev. Francis B. Nuss

who celebrates the 50th Anniversary of his Ordination on June 3. Fr. Nuss has been a faithful pro-life leader participating in events for life for many years. All are invited

to a June 26 event to honor his work. For more information, see Page 12.

June is Abortion Awareness Month In The Black Community

The Alan Guttmacher Institute reports that black women are more than five times as likely as white women to have an abortion. On the average, 1,876 black babies are aborted every day in the U.S. According to statistics provided by the U.S. Center for Disease Control, since 1973, (when the Roe v. Wade decision decriminalized abortion), black women have had some 16 million abortions. Yet the truth is fighting to get out to the African-American community. In February 2011 a billboard was erected in SoHo in Manhattan by a Texas based group, Life Always, that showed a picture of a six year old black girl with the caption, "The most dangerous place for an African American is in the womb." Under massive protests by NYC council members and black leaders such as the Rev. Al Sharpton, it was removed after only two days. Dr. Alveda King said, "The message of this billboard is totally accurate...and it should provoke outrage in the African American community-not because it is racist, but because of the truth it reveals; the truth that is being kept from the African American community." See websites:

ThatsAbortion.com and www.blackgenocide.org or www.klannedparenthood.com. Also see April 2011 edition of *Life News* for information on obtaining the Life Dynamics documentary, "Maafa 21:Black Genocide in 21st Century America."

Announcing: Dei Gloriam

A new pro-life organization is offering to send speakers to any diocesan group or parish to describe its purpose and seek support. Dei Gloriam is a pro-life community whose members are engaged in full time pro-life work and who live in a residence. The members are not paid but they do receive room and board. The effort is supported by donation. Daily Mass and prayer are part of the lifestyle of this lay community. A wide variety of pro-life work including organizing demonstrations, writing pro-life literature and travel will be part of the daily activities. Joan Andrews Bell is creating the organization. For information call John J. Broderick at 516-238-7961.

Face the Truth - Good Friday 2011

The line spread along Hempstead Turnpike in front of Nassau University Medical Center for the Good Friday Face the Truth event on April 22. About 120 pro-lifers, including families, adults, teens, and grandparents, defended the unborn - with their presence, their signs and their prayer.

Many of you who participate in events sponsored by the LI Coalition for Life find out about the event from Life News or you receive e-mail notices. However, some of those who attended the Good Friday vigil found out because they

saw a flyer in their church or they saw a notice in the church bulletin and others came because someone personally asked them to. We thank those who took the time to post flyers, to submit bulletin items and to reach out to family and friends, encouraging their participation. It does make a difference.

Those who drove along the 1/4 mile in front of the hospital, seeing pro-lifers on both sides of the roadway, were reminded in a very real way of the plight of the unborn.

Grounded and Settled: On April 16, Grounded and Settled Youth from the Cathedral Church of the Intercessor in Malverne, along with supporting Pro Lifers, stood against abortion in Lynbrook. Their mission is to create awareness about abortion, to remind people abortion is murder and needs to end, and to show that if we stand united we can put an end to abortion on Long Island and in the Country.

On April 17, the Cathedral Church of the Intercessor held their annual Holy Saturday Liturgy for the Preborn in front of Planned Parenthood in Hemsptead.
